03

We embrace new technologies and methodologies to stay ahead.

04

We are dedicated to the success of our students and the aviation industry.

05

We work together with industry leaders to provide unparalleled training.

”

Wonderful experience

I may not always say it but I mean it when I say it. Thank you for all the extra help you gave me to clear my dgca examination. Honestly speaking from my heart it was a wonderful experience learning from you. This friendly and practical learning environment made me learn all the technical stuff effortlessly and finally it created confidence in me to clear it. Once again thank you for everything.

Shakti, Pondicherry

CADET PILOT PROGRAM ENTRANCE PREPARATION

Leading airlines in India have their own Cadet Pilot Training Program, and the selection process includes several rounds to get selected with their training program which also has personal interview.

We at contrail provide training with airline pilots for all rounds to get selected with their program, and we have few cadets who have cleared and pursuing it already.

PPL / CPL FLYING COURSES

Chart an exceptional path to an aviation career with our uniquely focused Cadet Pilot Programs.

Explore the industry extensively with leading schools in USA, Canada, Australia, New Zealand and South Africa, gaining a distinctive advantage for a comprehensive understanding of aviation industry.

We offer free assistance in finding accommodation tailored to your desires in your chosen country (or) forge an extraordinary journey towards an aviation career with our specialized programs.

TYPE RATING

Check out our extensive selection of Type Rating Courses focusing on:

Airbus A320

ATR

Boeing 737

Get trained and guided by industry experts and elevate your pilot career to new heights.

AIRLINE WRITTEN EXAMINATION PREP

Our targeted training programs help achieve mastery in essential subjects, sharpen your skills and confidently tackle the complexities of aviation industry assessments.

As an added advantage:

- Benefit from 3 mock exams
- Facilitated by current airline pilots experienced in both domestic and international flights.

AIRLINE INTERVIEW PREP

Equip yourself for success in airline interviews through our specialized training programs. Take advantage of our exclusive mock interview session led by distinguished pilots with over a decade of experience and gain insights into the interview process, identify areas for improvement and enhance your readiness for a successful aviation career.

Key Takeaways:

- Master crucial interview techniques
- Refine your skills
- Confidently navigate the challenges of industry assessments

Our curriculum covers:

- Emergency procedures
- Customer service excellence
- Industry-specific modules

CABIN CREW TRAINING

Contrail Aviation's Cabin Crew Training, helps aspiring cabin crew with dynamic classes, preparing you for a rewarding journey in aviation.

Exclusively led by industry-immersed professional pilots and senior cabin crew, our classes offer a unique learning experience designed to shape aspiring cabin crew members into skilled professionals.

DRONE PILOT TRAINING

We take the hassle out of drone registration and licensing, guiding you through the essential steps. Our classes offer an unparalleled chance to learn from industry professionals actively immersed in the field.

We redefine the approach to drone education, where professionalism and proficiency converge. Seize this unique opportunity to launch your career in drone technology and ascend to new heights in an ever-evolving industry.

Gain practical training and simulations led by these seasoned experts, ensuring you acquire the skills for DGCA certification.

INTERNSHIP PROGRAM

The primary goal of this class is to be led by experienced, licensed pilots.

They will help fill the knowledge gap that students often face regarding fundamental flying concepts, especially since they may not have access to adequate visual materials during their training.

The course will encompass essential topics for pilots and cabin crew, providing students with valuable connections to universities in India.

This program may also benefit those who dream of becoming trained pilots or cabin crew members.

Course Fee:

Rs.3,500/-

Designed for:

College students

Duration

One month (offline and online)
Monday-Friday

- Reference Videos
- Each session concludes with a brief quiz.
- A minimum score of 50% is required to obtain the certificate.
- Support is available for addressing any questions or concerns.

”

**Amazing
place to
start your
journey.**

I find in this field the most important aspect is mentorship and teaching when you're starting off. Mani Sir and Vishnu Sir took my classes and they handled the subjects very well! Not only is it easy to understand but you also walk away with a lot of knowledge in the industry. Mani Sir made sure we were prepared for the airline interviews from day one. Great to see the commitment and quality of training here at contrail. Huge thanks to the instructors for this confidence I have before starting my flying.
